# CALMING AND CREATIVE

Layton Campbell, of JLayton Interiors, knows a bedroom should be restful but never plain.

Completed in the Quail Hollow club area, this master suite has beautiful views of the golf course. Layton wanted to enhance, not detract, from that and so he created a romantic, serene escape from everyday work and life responsibilities for his client.

In the room, the high vaulted ceilings allow for expansive windows and light, which enabled Layton to source the stunning, custom Christopher Boots light fixture of aged brass and rock crystal. The French reclaimed hardwoods add warmth and grounding to the space. The entire space is wrapped in a muted mauve, shimmery Phillip Jeffries wallcovering.

"I wanted to mix layers of texture and materials that would evoke a sense of calm," said Layton.

The custom designed silk rug is by JLayton Interiors through Stark Carpet, the bedding is by SDH and Home Treasures from Bedside Manor, the sheer fabric is by Romo Zinc Collection and the custom leather ottoman is Nastasha Baradaran.
